

COMMITTED TO THE CORE

For more than three decades, Spectron Engineers Pvt. Ltd. is one of the most trusted names in diverse fields ranging from Oil & Gas Sectors to Energy Powered Industries across the World. They have a Joint Venture with the Italian Company IBIX. Spectron is looking for committed distributors/ dealers for diverse products- Portable special cleaning & blasting, Portable surface coating system. Interested distributors can reach them at the earliest to initiate the business discussions.

## Biocare liquid sprays

**Biocare range of the liquid sprays makes the substrate non-adhesive to liquids & dust.**

**Essenzio** *Catalog No. ND001 & MRP Rs. 00*

Essenzio is a blend of essential oils in synergy with each other, mainly: Oregano and Thyme *Origanum vulgare* extracts. *Thymus vulgaris*. It replaces toxic and invasive products, promoting

a “Green” conservation of architectural and cultural assets. The product is biodegradable and biocompatible and does not suppress the growth of moss or simply burn the top layer; Essentially splits the weed cells up to their structure, similar to a root (hyphae), eliminating them.

**I-Protect** *Catalog No. ND002 & MRP Rs. 00*

I-PROTECT will prevent airborne dirt and stains, including chewing gum, from adhering to the surface. I-PROTECT will reduce surface degradation as atmospheric contaminants no longer stick to the surface. I-PROTECT will not alter the aesthetic of the treated surface (invisible protection) or change its colour. A treated surface will remain moisture and vapour permeable. I-PROTECT will always be easy to apply to all surfaces, you can use the surface within 1 hour of application.

# Thank You

Spectron Engineers Pvt. Ltd.
